MANAGEMENT DISCUSSION & ANALYSIS OF
RESULTS OF OPERATIONS AND FINANCIAL CONDITION
For the Three Months Ended January 31, 2014

**GRANDE PORTAGE RESOURCES LTD.
MANAGEMENT DISCUSSION & ANALYSIS
For the Years Ended October 31, 2013 and 2012**

(Dated February 24, 2014)

DESCRIPTION OF BUSINESS

The Company is a development stage company whose shares trade on Tier I of the TSX Venture Exchange. The Company holds resource properties and property interests in British Columbia, Canada, and has exercised its option to acquire 65% of the Herbert Glacier gold property, consisting of 91 mining claims located 20 miles north of Juneau, Alaska. The Company has not yet determined whether these properties contain ore reserves that are economically recoverable.

The Company is in the process of exploring its principal mineral properties and has not yet determined whether the properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related deferred exploration costs is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

The Company incurred a net loss of \$127,945 (2013: \$476,773) for the three months ended January 31, 2014, and had an accumulated deficit of \$8,674,467 (2013: \$7,705,402) which has been funded primarily by the issuance of equity. The Company's ability to continue as a going concern is uncertain and is dependent upon the generation of profits from mineral properties, obtaining additional financing or maintaining continued support from its shareholders and creditors. In the event that additional financial support is not received or operating profits are not generated, the carrying values of the Company's assets may be adversely affected.

FORWARD LOOKING STATEMENTS

This MD&A contains certain statements that may constitute "forward-looking statements". Forward-looking statements include but are not limited to, statements regarding future anticipated business developments and the timing thereof, and business and financing plans. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: believe, expect, anticipate, intend, estimate, postulate and similar expressions, or which by their nature refer to future events. The Company cautions investors that any forward-looking statements made by the Company are not guarantees of future performance, and that actual results may differ materially from those in forward looking statements as a result of various factors, including, but not limited to, the Company's ability to continue its projected growth, to raise the necessary capital or to be fully able to implement its business strategies.

MANAGEMENT DISCUSSION & ANALYSIS
For the Years Ended October 31, 2013 and 2012**

Results of Operations for the three months ended January 31, 2014 and 2013

During the three-month period, the Company incurred \$77,253 (2013- \$118,674) in operating expenses, earned \$7,170 (2013 - \$13,668) in interest and investment income. The Company incurred a loss of \$69,237 (2013 - \$15,294) on the sale of marketable securities and recorded an unrealized gain on investments of \$11,374 (2013 – loss of \$356,483) during the three-month period for a net loss of \$127,945 (2013 - \$476,773).

During the three-month period ended January 31, 2014, there was a total of \$29,145 (2013 - \$89,044) incurred for exploration expenditures and acquisition costs on the Company's various mineral properties in British Columbia and its Herbert Glacier property in Alaska and recoveries of \$6,537 (2013 - \$39,455). The majority of the costs for the BC properties were incurred for camp personnel and maintenance. The majority of the costs for the Alaskan property were for geological and consulting fees, mapping costs, and travel.

Selected Quarterly Financial Information:

LIQUIDITY AND CAPITAL RESOURCES

At January 31, 2014, the Company had net working capital of \$297,690 compared to \$447,267 at October 31, 2013. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. At January 31, 2014 the Company had cash and marketable securities of \$336,950 (2013 - \$1,068,498) to settle its current liabilities of \$64,280 (2013 - \$26,771). Most of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms.

As at January 31, 2014, the Company had available for sale 1,001,400 common shares Quaterra Resources Inc. (a public company) with a market value of \$60,084, (cost - \$706,868). The Company also holds 27,660 common shares of Lightstream Resources Ltd, having a market value of \$171,769 (cost - \$483,204) and 75,000 common shares of Auracle having a market value of \$750 (cost - \$22,500).

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this filing, the Company does not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Company including, without limitation, such considerations as liquidity and capital resources that have not previously been discussed.

**GRANDE PORTAGE RESOURCES LTD.
MANAGEMENT DISCUSSION & ANALYSIS
For the Years Ended October 31, 2013 and 2012**

COMMITMENTS

The Company has renewed management agreements with certain members of senior management. In the event that there is a change of control, the Corporation is committed to pay severance payments equivalent to three months of salary.

INVESTMENTS

The Company holds marketable securities having a fair market value of \$232,603 as at January 31, 2014.

CORPORATE INTERNAL CONTROL

The Company practices strict internal controls through proper segregation of responsibilities and internal reporting of its personnel. Agreements and commitments that involve cash and/or share capital distribution such as private placements, stock option grant, property, service, and consulting agreements require Board of Directors approval through Directors' Resolution. The Company's drilling and exploration programs and budgets are planned and approved by the Company's President & CEO and the Company's Vice President of Exploration. All cash distribution requires the Company's President & CEO and CFO to approve to ensure that all expenses are accurate and aligned with the Company's budget. Approved share capital distribution is executed through Treasury Orders that require final approval from the Company's President & CEO and CFO. These internal control procedures are established and strictly practiced to ensure the Company's goals and best interest of the shareholders are effectively carried out.

RESOURCE PROPERTIES

Merry Widow Property

Pursuant to an agreement dated March 25, 2004, the Company was granted an option to earn a 100% interest in mineral claims known as the Merry Widow property located in the Nanaimo Mining Division of British Columbia. Grande Portage Resources paid \$75,000 in cash and issued 450,000 common shares of the Company.

The property is subject to a 2% net smelter return royalty (NSR), with a minimum advance payment of \$16,000 due each calendar year following the year the option is exercised. The Company may purchase the NSR for \$750,000.

On December 4, 2012, the option agreement was amended. Starting from December 31, 2012, the annual advance royalty payment was reduced from \$16,000 cash to \$5,000 cash (paid) and issuance of 60,000 common shares (issued). On January 8, 2013, the Company issued 60,000 shares at a fair value of \$0.13 per share for a total of \$7,800.

On December 31, 2013, the Merry Widow option agreement was amended. Starting from December 31, 2013, the annual advance royalty payment was reduced from \$16,000 cash to \$5,000 cash (\$2,500 paid) and issuance of 150,000 common shares (issued). On February 11, 2013, the Company issued 150,000 shares at a fair value of \$0.02 per share for a total of \$3,000.

GRANDE PORTAGE RESOURCES LTD.
MANAGEMENT DISCUSSION & ANALYSIS
For the Years Ended October 31, 2013 and 2012

New Merry Widow Property

Pursuant to an agreement dated March 10, 2006, the Company was granted an option to earn a 100% interest in an area adjoining the Company's Merry Widow property. To earn the 100% interest, the Company paid \$75,000 and issued 325,000 common shares of the Company. The property will be subject to a 2% Net Smelter Return ("NSR"). The Company may purchase 100% of the NSR for \$750,000.

Pass Property

Pursuant to an agreement dated August 30, 2007, as amended August 5, 2011, the Company was granted an option to earn up to a 100% interest in two mineral claims located in the Omineca Mining Division of British Columbia known as the Pass property. To earn the 100% interest in these claims, the Company is required to pay a total of \$7,500 and complete minimum expenditures of \$500,000 before October 12, 2012 and issue 200,000 common shares if and when the first, second and third phase of the exploration program on the property has been completed.

As at October 31, 2013, the Company has substantially incurred the second \$250,000 in exploration expenditures, except for approximately \$25,000. In order to waive the remaining \$25,000 expenditures, the option agreement was amended on September 12, 2013 by issuing 50,000 common shares. The Company issued the common shares on October 11, 2013 at a fair value of \$0.04 per share, for a total consideration of \$2,000. Upon issuance of the common shares, the Company acquired 100% interest in this property.

The property is subject to a 3.0% net smelter return royalty (NSR), with payments due within 30 days after receipt of proceeds and 90 days after the end of each fiscal year thereafter. The Company may purchase 50% of the NSR for \$1,000,000.

New Mine Property

Pursuant to an agreement dated September 17, 2009, the Company acquired ten mineral claims located in the Omineca Mining Division of British Columbia for a total acquisition cost of \$75,000 and the issuance of 50,000 common shares.

Herbert Glacier

Pursuant to an agreement dated June 16, 2010 (the "Option Agreement") with Quaterra Alaska, Inc. ("Quaterra"), the Company was granted and has exercised an option to acquire a 65% interest in a mining lease dated November 1, 2007 (the "Mining Lease") for the Herbert Glacier gold property, consisting of 84 mining claims, located 20 miles north of Juneau, Alaska. The Company was required to and incurred at least USD \$1,250,000 under the Option Agreement in exploration expenditures on the property to acquire its 65% interest. By an agreement dated October 24, 2011, the Company's wholly owned Alaska subsidiary entered into a joint operation with Quaterra (the "JVA") with their initial joint venture interests being Quaterra as to 35% and the Company as to 65%. Under the JVA, the Company's subsidiary is appointed as operator of the project. Each party is required to contribute its proportionate share of costs for all future exploration and development work. A party's interest in the project will be diluted in the event of non-payment of its share, in accordance with the terms of the JVA. By operation of the dilution formula in the JVA, if a non-contributing party's interest falls below 10%, then such non-contributing party's interest will be converted into a 1% net smelter returns royalty (the "NSR"). The contributing party has the option at any time to acquire the NSR for USD \$1.0 million.

The Mining Lease requires minimum annual advance royalty payments due November 1 of each year equal to USD \$12,000 for years one to four, increasing to USD \$20,000 in years five to ten, then increasing to USD \$30,000 per year thereafter, provided that before the tenth year of the lease such advance royalties will be adjusted for inflation. All advance royalties will be shared on a joint venture basis with Quaterra, based on the proportionate share of the Company and Quaterra in the Mining Lease, and will be credited towards any net smelter returns ("NSR") royalty paid upon the commencement of commercial production. The Mining Lease provides for a sliding scale royalty of up to a 5% NSR, when the price of gold exceeds USD \$601 per oz.

375,000	\$0.15	October 29, 2017
4,650,000		

Share Purchase Warrants - There are no share purchase warrants outstanding at February 24, 2014.

**GRANDE PORTAGE RESOURCES LTD.
MANAGEMENT DISCUSSION & ANALYSIS
For the Years Ended October 31, 2013 and 2012**

RISK FACTORS

The following is a brief description of some of the risks that investors should be aware of. This discussion should not be considered complete and therefore, the Company, its Directors and officers would like to recommend shareholders, lenders, investors and readers of the Management Discussion and Analysis and other documents that the Company may disseminate to review their investments directly with their financial advisors.

- a) the Company has not yet commenced commercial operations and has no history of earnings;
- b) there can be no assurance that an active and liquid market for the Company's common shares will develop and an investor may find it difficult to resell its common shares.

FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

(a) Financial Instruments

As at January 31, 2014, the Company's financial instruments consist of cash and cash equivalents, marketable securities, and accounts payable. The fair values of these financial instruments approximate their carrying values because of their short-term nature.

(b) Fair Value Measurements

The Company's financial instruments are categorized in a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 - applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The fair value of cash and cash equivalents is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. As at January 31, 2014, the Company believes that the carrying values of reclamation bonds and accounts payable approximate their fair values because of their nature and relatively short maturity dates or durations.

Financial Risk Factors

Credit Risk

Credit risk arises from the non-performance by counterparties of contractual financial obligations. The Company's maximum credit risk is \$484,907 consisting of cash and cash equivalents, and marketable securities. The Company limits its exposure to credit loss for cash and cash equivalents, marketable securities and reclamation bonds by placing such instruments with high credit quality financial institutions. The values of these instruments may exceed amounts insured by an agency of the government of Canada. In management's opinion, the Company's credit risk related to cash and cash equivalents and reclamation bonds is minimal.

**GRANDE PORTAGE RESOURCES LTD.
MANAGEMENT DISCUSSION & ANALYSIS
For the Years Ended October 31, 2013 and 2012**

Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient financial resources to meet liabilities when due. As at January 31, 2014, the Company had working capital of \$297,690. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. As at January 31, 2014 the Company has adequate working capital to discharge its existing financial obligations.

Market Risk

The Company's financial instruments include marketable securities which are publicly traded and therefore subject to the risks related to the fluctuation in market prices of publicly traded securities. The Company closely monitors market values to determine the most appropriate course of action.

Interest Rate Risk

The Company is subject to interest rate risk as its cash equivalents bear interest at fixed rates. In management's opinion, the Company's interest rate risk is minimal as its cash equivalents may be redeemed upon demand without significant penalty.

Foreign Currency Risk

The Company's currency risk exposures arise from transactions denominated in foreign currencies. The Company's foreign exchange risk arises primarily with respect to the US dollar. The Company incurs mineral exploration expenditures denominated in the US dollar. Fluctuations in the exchange rates between the US dollar and the Canadian dollar could have a material effect on the Company's business, financial condition and results of operations. The Company does not engage in any hedging activity.

Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities may be subject to risks associated with fluctuations in the market price of commodities.

SUBSEQUENT EVENT

There are no subsequent events to report.

DISCLAIMER

The information provided in this document is not intended to be a comprehensive review of all matters concerning the Company. The users of this information, including but not limited to investors and prospective investors, should read it in conjunction with all other disclosure documents provided including but not limited to all documents filed on SEDAR (www.SEDAR.com). No securities commission or regulatory authority has reviewed the accuracy of the information presented herein. The Company maintains a system of internal controls to provide reasonable assurance that assets are safeguarded and financial information is accurate and reliable. The Board of Directors has responsibility for developing and implementing the Company's approach to governance issues. Committees of the Board presently consist of an Audit Committee.

CAUTIONARY STATEMENT RISKS AND UNCERTAINTIES

This MD&A may contain "forward looking statement" that reflect the Company's current expectations and projections about its future results. When used in this MD&A, words such as "estimate", "intend", "expect", "anticipate", and similar expressions are intended to identify forward-looking statements, which by their very nature, are not guarantees of the Company's future operational or financial performance, and are subject to risks and uncertainties and other factors that could cause the Company's actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied, by these forward-looking statements. These risks, uncertainties and factors may include, but are not limited to: unavailability of financing, unfavorable feasibility studies, fluctuations in the market valuation for the minerals, difficulties in obtaining required approvals for the development of a mine and other factors.
