(Dated June 27, 2016)

**DESCRIPTION OF BUSINESS**

The Company is an exploration stage company whose shares trade on Tier II (effective June 16, 2016) of the TSX Venture Exchange. The Company holds resource properties and property interests in British Columbia, Canada, and has exercised its option to acquire 65% of the Herbert Gold gold property, consisting of 91 mining claims located 20 miles north of Juneau, Alaska.

The Company is in the process of exploring its principal mineral properties and has not yet determined whether the properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related deferred exploration costs is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

The Company incurred a net loss of \$147,510 (2015 - \$159,258) for the six-month period ended April 30, 2016, and had an accumulated deficit of \$15,764,523 (October 31, 2015 - \$15,617,013) which has been funded primarily by the issuance of equity. The Company's ability to continue as a going concern is uncertain and is dependent upon the generation of profits from mineral properties, obtaining additional financing or maintaining continued support from its shareholders and creditors. In the event that additional financial support is not received or operating profits are not generated, the carrying values of the Company's assets may be adversely affected.

**FORWARD LOOKING STATEMENTS**

This MD&A contains certain statements that may constitute "forward-looking statements". Forward-looking statements include but are not limited to, statements regarding future anticipated business developments and the timing thereof, and business and financing plans. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: believe, expect, anticipate, intend, estimate, postulate and similar expressions, or which by their nature refer to future events. The Company cautions investors that any forward-looking statements made by the Company are not guarantees of future performance, and that actual results may differ materially from those in forward looking statements as a result of various factors, including, but not limited to, the Company's ability to continue its projected growth, to raise the necessary capital or to be fully able to implement its business strategies.

**GRANDE PORTAGE RESOURCES LTD.  
MANAGEMENT DISCUSSION & ANALYSIS  
For the Six-month Period Ended April 30, 2016 and 2015**

---

**Results of Operations for the three months ended April 30, 2016 and 2015**

During the three-month period, the Company incurred \$89,485 (2015 - \$77,156) in operating expenses. Increases in costs for the current period over the prior period were realized in professional fees and regulatory and filing fees. The Company recorded an unrealized gain on investments of \$323 (2015 – unrealized loss of \$124,154) during the three-month period.

During the three-month period ended April 30, 2016, there was a total of \$3,813 (2015 - \$1,388) incurred for exploration expenditures and acquisition costs on the Company's Herbert Gold Property in Alaska. The majority of the costs for the Alaskan property were for claim renewal fees.

On February 18, 2016, the Company's shares were consolidated on a 10 for 1 basis. A total of 69,502,392 Common Shares were issued and outstanding at the time of the consolidation and upon completion the number of issued and outstanding became 6,950,237 shares of the Company.

During the period ended April 30, 2016, the Company raised gross proceeds of \$250,250 through a non-brokered private placement of 5,005,000 Units. Each Unit consisted of one common share in the capital of the Company and one share purchase warrant. Each whole Warrant will be exercisable at a price of \$0.075 to purchase an additional common share for a period of 24 months following the Closing Date.

On April 4, 2016, Mr Harold Forzley resigned as CFO of Grande Portage Resources and Ms. Michele Pillon was appointed CFO. Ms. Pillon has 25 years of experience in the junior mining exploration sector, providing accounting and regulatory assistance to public companies. Since May 1988, she has worked as an accountant to public companies in the resource sector. Ms. Pillon CFO of four public companies; GMV Minerals Inc since October 2007; CFO of Gainey Capital Corp since March 31, 2014; and CFO of Golden Reign Resources Ltd since September 2013.

The Company paid a total of \$5,075 in finder's fees and issued 91,000 broker warrants associated with the closing. All securities issued in conjunction with the Offering are subject to a four-month statutory hold period in Canada.

**Results of Operations for the six months ended April 30, 2016 and 2015**

During the six-month period, the Company incurred \$146,895 (2015 - \$146,570) in operating expenses. The Company recorded an unrealized gain on investments of \$375 (2015 – unrecognized loss \$238,807) during the six-month period.

During the six-month period ended April, 2016, there was a total of \$30,572 (2015 - \$15,537) incurred for exploration expenditures and acquisition costs on the Company's Herbert Gold property in Alaska. The majority of the costs for the Alaskan property were for claim renewal fees.

**LIQUIDITY AND CAPITAL RESOURCES**

As at April 30, 2016, the Company had a net working capital deficiency of \$180,063 compared to \$247,156 at October 31, 2015. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. At April 30, 2016 the Company had cash and marketable securities of \$59,196 (October 31, 2015 - \$6,066) to settle its accounts payable of \$249,930 (October 31, 2015 - \$270,717). Most of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms.

As at April 30, 2016, the Company had available for sale 3,000 common shares Quaterra Resources Inc. (a public company) with a market value of \$165, (cost - \$2,118). The Company also holds 3,750 common shares of Four River Ventures Ltd. (formerly Auracle Resources Ltd.) having a market value of \$694 (cost - \$22,500).

**RECLAMATION BONDS**

The Company placed Guaranteed Interest Certificates ("GICs") in trust as reclamation deposits pursuant to a condition of receiving consent from a government agency to explore its resource property interests. At April 30, 2016, the Company has one GIC of \$15,000 related to the Pass Property. The GIC matures May 27, 2016 and will be renewed indefinitely until the Company has ceased exploration on the related resource property and inspections reveal no environmental disturbance.

**OFF-BALANCE SHEET ARRANGEMENTS**

As of the date of this filing, the Company does not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Company including, without limitation, such considerations as liquidity and capital resources that have not previously been discussed.

**COMMITMENTS**

The Company has renewed management agreements with certain members of senior management. In the event that there is a change of control or termination of contract, the Company is committed to pay severance payments equivalent to twelve months of salary. The agreements expire in October 31, 2016 and the Company is committed to make monthly payment of \$13,500.

**INVESTMENTS**

The Company holds marketable securities having a fair market value of \$859 as at April 30, 2016.

<b>Balance, April 30, 2016</b>	<b>\$ 4,112,779</b>

**RESOURCE PROPERTIES**

Herbert Gold

Pursuant to an agreement dated June 16, 2010, as amended on June 12, 2012, (the "Option Agreement") with Quaterra Alaska, Inc. ("Quaterra"), the Company was granted and has exercised an option to acquire a 65% interest in a mining lease dated November 1, 2007 (the "Mining Lease") for the Herbert Gold Property, consisting of 84 mining claims, located 20 miles north of Juneau, Alaska. The Company was required to incur at least USD\$1,250,000 (incurred) under the Option Agreement in exploration expenditures on the property to acquire its 65% interest. In addition, the Mining Lease requires minimum annual advance royalty payments due November 1 of each year, with the amount of USD\$12,000 per year for Years 1-4, USD\$20,000 for Years 5-10, and USD\$30,000 per year thereafter, provided that before the tenth year of the lease such advance royalties will be adjusted for inflation.

On October 24, 2011, the Company entered into a joint operation with Quaterra (the "JVA") with their initial joint interests being Quaterra 35% and the Company 65%. Under the JVA, the Company's subsidiary is appointed as operator of the project. Pursuant to the JVA, Quaterra and the Alaska subsidiary were required to contribute a value of \$673,077 and \$1,250,000, respectively, as Initial Contributions. These initial values were contributed in full by both parties as at October 31, 2012. Each party is also required to contribute its proportionate share of costs for all future exploration and development work.

During the year ended October 31, 2015, Quaterra gave the Company a notification of its election not to participate in future programs on the property, as it wishes to dedicate the majority of its financial resources to its Yerington Copper project in Nevada. This notice did not cancel the JVA between the Company and Quaterra, according to which Quaterra will continue to be responsible for 35% claim maintenance fees.

A party's interest in the project will be diluted in the event of non-payment of its share, in accordance with the terms of the JVA. By operation of the dilution formula in the JVA, if a non-contributing party's interest falls below 10%, then such non-contributing party's interest will be converted into a 1% net smelter returns royalty (the "NSR"). The contributing party has the option at any time to acquire the NSR for USD \$1.0 million.

All advance royalties will be shared on a proportionate share basis with Quaterra, based on the share of the Company and Quaterra in the Mining Lease, and will be credited towards any net smelter returns ("NSR") royalty paid upon the commencement of commercial production. The Mining Lease provides for a sliding scale royalty of up to a 5% NSR, when the price of gold exceeds USD \$601 per oz. As at April 30, 2016, all advance royalty payments had been made to date.

MANAGEMENT DISCUSSION & ANALYSIS  
For the Six-month Period Ended April 30, 2016 and 2015**

---

**DECOMMISSIONING LIABILITIES**

The Company is subject to various regulatory and statutory requirements relating to the protection of the environment.

During the year ended October 31, 2015, the Company incurred provision for site restoration costs in the amount of \$3,189 (2014 - \$nil) with respect to the Pass Property. An additional future restoration cost of \$3,000 is also expected for this property in order to fulfil all environmental liabilities. The obligation is recognized based on the future reclamation costs estimated by management and has been recorded as decommissioning liabilities at April 30, 2016.

As the restoration costs are expected to be incurred within twelve months, the value of the decommissioning liability of \$3,000 is recorded as a current amount.

**RELATED PARTY TRANSACTIONS**

Included in accounts payable at April 30, 2016 is \$212,182 (2015 - \$131,816) owing for services to companies controlled by directors of the Company. These amounts are unsecured, non-interest bearing, and are due on demand.

During the six-month period ended April 30, 2015, the Company incurred the following related party transactions:

- (a) \$8,830 (2015 - \$5,474) in legal fees to a law firm of which a Partner is a director of the Company;
- b) The Company has identified its directors and senior officers as its key management personnel. No post-employment benefits, other long-terms benefits and termination benefits were made during the six-month period ended April 30, 2016 and 2015. Short-term key management compensation consists of the following for the six-month period ended April 30, 2016 and 2015:

	<b>2016</b>	<b>2015</b>
	\$	\$
Legal fees	8,830	5,474
Management fees	81,000	81,000
<b>Total</b>	<b>89,830</b>	<b>86,474</b>

**SHARE CAPITAL**

Issued and Outstanding: Balance outstanding as at June 27, 2016 is 11,955,237.  
Stock Options outstanding: Balance outstanding as at June 27, 2016 is 352,500.  
Share Purchase Warrants: Balance outstanding as at June 27, 2016 is 5,005,000.

**RISK FACTORS**

The following is a brief description of some of the risks that investors should be aware of. This discussion should not be considered complete and therefore, the Company, its Directors and officers would like to recommend shareholders, lenders, investors and readers of the Management Discussion and Analysis and other documents that the Company may disseminate to review their investments directly with their financial advisors.

- a) the Company has not yet commenced commercial operations and has no history of earnings;
- b) there can be no assurance that an active and liquid market for the Company's common shares will develop and an investor may find it difficult to resell its common shares.

**GRANDE PORTAGE RESOURCES LTD.**  
**MANAGEMENT DISCUSSION & ANALYSIS**  
**For the Six-month Period Ended April 30, 2016 and 2015**

---

**FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS**

(a) Financial Instruments

As at April 30, 2016, the Company's financial instruments consist of cash and cash equivalents, marketable securities, and accounts payable. The fair values of these financial instruments approximate their carrying values because of their short-term nature.

(b) Fair Value Measurements

The Company's financial instruments are categorized in a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 - applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

The fair value of cash and cash equivalents is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. As at January 31, 2016, the Company believes that the carrying values of reclamation bonds and accounts payable approximate their fair values because of their nature and relatively short maturity dates or durations.

**Financial Risk Factors**

*Credit Risk*

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations.

Concentration of credit risk exists with respect to the Company's cash and cash equivalents and marketable securities as all are placed with two major Canadian financial institutions. The Company is not exposed to significant credit risk on its cash and cash equivalents and marketable securities as all have been placed with major financial institutions.

*Liquidity Risk*

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. At April 30, 2016, the Company had a working capital deficiency of \$180,063 (October 31, 2015 - \$247,156). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. As at April 30, 2016, the Company does not have adequate working capital to discharge its existing financial obligations and will need to acquire additional funding in order to meet its current obligations.

*Market Risk*

The Company's financial instruments include marketable securities which are publicly traded and therefore subject to the risks related to the fluctuation in market prices of publicly traded securities. The Company closely monitors market values to determine the most appropriate course of action.

**GRANDE PORTAGE RESOURCES LTD.  
MANAGEMENT DISCUSSION & ANALYSIS  
For the Six-month Period Ended April 30, 2016 and 2015**

---

Interest Rate Risk

The Company is not subject to any significant interest rate risk. In management's opinion, the Company's interest rate risk is minimal as its cash equivalents may be redeemed upon demand without significant penalty

Foreign Currency Risk

The Company's currency risk exposures arise from transactions denominated in foreign currencies. The Company's foreign exchange risk arises primarily with respect to the United States dollars ("USD"). The Company incurs exploration expenditures denominated in the USD. Fluctuations in the exchange rates between United States dollars and Canadian dollars could have a material effect on the Company's business, financial condition and results of operations. The result of sensitivity analysis conducted by the Company shows an increase (decrease) of 10% in the foreign exchange rates between USD and Canadian Dollar could result in an increase (decrease) of the Company's net assets by approximately \$4,200 (2015 - \$7,000). The Company does not engage in any hedging activity.

Commodity Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities may be subject to risks associated with fluctuations in the market price of commodities. Management closely monitors commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

**SUBSEQUENT EVENT**

The Company wishes to confirm that its listing on the TSX Venture Exchange moved from Tier 1 to Tier 2 effective June 16 2016. This announcement was previously made on June 15, 2016.

**DISCLAIMER**

The information provided in this document is not intended to be a comprehensive review of all matters concerning the Company. The users of this information, including but not limited to investors and prospective investors, should read it in conjunction with all other disclosure documents provided including but not limited to all documents filed on SEDAR ([www.SEDAR.com](http://www.SEDAR.com)). No securities commission or regulatory authority has reviewed the accuracy of the information presented herein. The Company maintains a system of internal controls to provide reasonable assurance that assets are safeguarded and financial information is accurate and reliable. The Board of Directors has responsibility for developing and implementing the Company's approach to governance issues. Committees of the Board presently consist of an Audit Committee.

**CAUTIONARY STATEMENT RISKS AND UNCERTAINTIES**

This MD&A may contain "forward looking statement" that reflect the Company's current expectations and projections about its future results. When used in this MD&A, words such as "estimate", "intend", "expect", "anticipate", and similar expressions are intended to identify forward-looking statements, which by their very nature, are not guarantees of the Company's future operational or financial performance, and are subject to risks and uncertainties and other factors that could cause the Company's actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied, by these forward-looking statements. These risks, uncertainties and factors may include, but are not limited to: unavailability of financing, unfavorable feasibility studies, fluctuations in the market valuation for the minerals, difficulties in obtaining required approvals for the development of a mine and other factors.

Readers are cautioned not to place undue reliance on these forward-looking statements which speak only as at the date of this MD&A or as of the date otherwise specifically indicated herein. Due to risks and uncertainties, including the risks and uncertainties identified above and elsewhere in this MD&A, actual events may differ materially from current expectations. The Company does not intend, and does not assume any obligation to update these forward looking statements.
